Directions

The Child Weekly Menu may be used by your child care center to assist with meeting the CACFP meal pattern requirement for each meal type. Enter center/facility name and the corresponding date for each day of the week. For best use, choose an appropriate food for each row in the table for each day of the week. Provide at least the minimum serving size identified for each component for the appropriate age group. Follow the superscript to adhere to all meal pattern requirements.

²**Juice:** Pasteurized 100% juice may only be used once per day to meet the vegetable or fruit component requirement.

³**Vegetable:** One vegetable and one fruit or two different vegetables must be served at lunch/supper each day.

⁴**Meat/Meat Alternate:** A meat/meat alternate serving may replace a grain serving at breakfast, but no more than three times per week. 1 oz. grain = 1 oz. meat/meat alternate.

⁵**Nuts and Seeds:** Nuts and seeds may be used to meet only one-half of the total meat/meat alternate serving and must be combined with another meat/meat alternate to fulfill the lunch/supper requirement.

⁶**Meat/Meat Alternate Serving Size:** Appropriate meat/meat alternate minimum serving size in accordance with Appendix A Part 226; options include

Component	Lunch/Supper			Snack
